Transactions & Businesses

Commercial Law at the top of the pyramid of the different branches of law, and commercial transactions is the backbone of economic life. Given that the business accelerated in the region and the daily changes that occur in the body of the judiciary, rhythm are difficult for investors and companies to keep up with secretions commercial reality in terms of the rules.

This forces you to choose a legal representative and has extensive practical experience and adapted to these changes in order to stay informed with frequent changes in the judicial system. In addition to providing all strategic decisions available in a short period of time to preserve the rights and profits. Our office provides through its extensive experience developed for years in this important full range of unique area, to meet customer requirements to achieve satisfaction. These vary between buying and selling, and security systems and dealing with banks and financial institutions and their representation as plaintiff or defendant. Moreover, financing of legislation, dealing with agents, contract negotiation and documentation of various kinds, ranging from the agents, sales and distribution, intellectual property, franchise agreements and collecting all type of services.
Mohammed Bani Hashim & company’s property advising services has a wide range all across the Middle East and considers all the aspects related to the property industry. We established our property services in 2003 and maintained to produce the best of its services in the real estate legal space. The team of our legal representatives is qualified from Western as well as regional institutions that make them much more efficient and talented. Our team of well-respected property lawyers harnesses an impressive blend of western and qualifications, and is able to work in both the styles.

Our Expertise
More often Government Authorities are hiring us for consultancy services on the issues related to the content and drafting of new property laws and regulations. Our significant association in the improvement of the underlying legal structure guarantees our clients’ access to matchless legal advice and comprehension.

Being a top rated consultancy firm we have the capability for confrontation of all the aspects related to real estate legal practice, including the following:
- Administrative and administrative issues.

Protecting Your Most Valuable Assets

The protection and defense of your idea, innovation, invention or business process in the form of copyrights, patents and trade secrets is crucial to your success as an artist, business owner, entrepreneur, or executive.

We offer a full spectrum of intellectual property services, including:
- IP Litigation
- Patents
- Licensing
- Trademarks, Service Marks & Trade Dress

We represent clients through trial and appeal in various IP disputes, including trademark breach or dilution, faked advertising, unfair competition, gray market disputes, deceptive trade activities, right of publicity and advertising litigation. As trial attorneys, we are prepared to litigate any dispute, but our first priority is our clients' business objectives.
Civil and Criminal Litigation, Arbitration, Appeal

Litigation in the Civil or Criminal cases is aimed to get a fast and fair resolution of the matters. Our lawyers will take care of a fair judgment, when everything is said and done. We specialize in reliable legal solutions including:

- Negotiation
- Litigation
- Alternative Dispute Resolution
- Arbitration
- Appeal

From ordinary car accident claims up to the complex cases, our law firm provides the same dedicated and qualified representation to all our clients. We regularly brought in as a trial or appellate attorneys to handle particularly challenging matters.

We prioritize Arbitration in many disputes because of its positive role and impact to avoid its dealing in the corridors of the judiciary, especially in certain situations, such as spousal disputes or those relating to the conclusion and execution of contracts, particularly the long-term technology trade and joint ventures.

At the Appeal Courts we represent the appellant or a client responding to an appeal. Our ability is to synthesize and analyze the case, control the standards of review, create a compelling arguments to earn judicial and client trust as well as precedential victories. We handle cases on appeal that were originally tried by our attorneys in the trial courts, as well as the cases that were tried by other litigators.
Insurance is a system designed to protect an entity or institution or individual in the event of exposure to financial losses caused by an accident. Insurance is really helpful in some cases.

Its principle is based on paying a premium amount in order to return to the previous situation that was existed before incurring a loss. Due to the rapid growth to the pace of economic life, insurance law has divided into many branches dealing with many different sectors.

Muhammed Bani Hashem Advocates & Legal Consultants supervise all issues and claims arising from the various disputes relating to life, fire, demolition and vehicle insurance, as well as liability insurance and raise all the issues related to insurance with the competent judicial authorities and the representation of the agents in this regard.
Banking Sector

The banking sector is one of the most influential and vital ones in economic development by financing investment, boosting domestic and foreign savings, contributing to the move forward with economic growth and developing of other sectors associated with it. The scope of our legal services includes a wide range of banking and financial issues, notably: financing, refinancing facility, loan, guarantee, and shareholder’s agreements. In addition to preparing negotiation, trust, commitment and charge letters.
Labour Disputes

There are always some companies that do not follow the laws. When employees face unfair employment practices, our legal experts have the experience, ability and dedication to face even the biggest employers in court. We regularly provide consultation to both businesses and employees to deal properly with their respective rights and duties under applicable state laws, including the interpretation and effect of employment agreements and employer manuals.

We provide a wide range of services including negotiating employment or severance agreements, drafting and interpreting employment manuals, handling individual and class action wage and hour claims, benefit claims, defending or prosecuting wrongful termination claims, or resolving any number of disputes that arise between employers and employees. In today's complex economy, our experienced lawyers will help you in a professional and efficient manner.

Our objective is to provide effective solutions, including exploring whether insurance coverage may exist to help resolve disputes with existing or former employees.
